

21 SEP 1976

NOTE FOR: Chief, Logistics Services Division, OL  
Chief, Procurement Division, OL  
Chief, Real Estate and Construction Division, OL

FROM : [REDACTED]  
Executive Officer, OL

1. Please note the attached memo re the ADSTAR program. [REDACTED] is sending three more copies of the requirements plan and the management plan for your review and retention.

2. I recommend that each division establish a focal point officer. Obviously [REDACTED] is already in touch with CRS, so he would be one. I would suggest that RECD use [REDACTED] because of the close relationship between ADSTAR and SAFE. Perhaps we ought to have a single overall focal point within OL, but I defer to the three of you to determine whether this is necessary.

3. FYI, [REDACTED] advises that discussions are now underway as to whether ODP will take over project development and then turn a finished system over to CRS. He seems to feel that ODP will probably get it.

4. Perhaps we can discuss all of the above for a minute or two after one of the staff meetings.
